

WUNDERVOLL

German, made wonderful.

The language app that actually teaches you to speak - not just tap
colourful circles.

A premium mobile language-learning app - Expo / React Native - iOS - Android - Web

THE PROBLEM

Millions are learning a language - with nothing to show for it.

- Gamified apps optimise for streaks and addiction, not fluency. 1,000-day streaks, still cannot order a coffee.
- Endless tapping of colourful bubbles is not real conversation skill.
- Grammar is taught like a textbook - dry, abstract, forgettable.
- Learners quit because they never feel the payoff of actually speaking.

The result: high engagement metrics, low real-world competence.

THE SOLUTION

A German app built around speaking from day one.

- Real sentences. Real conversations. Real progress.
- Every lesson built around phrases you will use immediately.
- Grammar explained like a human, not a textbook.
- Science-backed: flashcards, spaced repetition, quizzes & mnemonics in one smooth flow.
- A love letter to the language itself - its beauty, its untranslatable words, its soul.

Six features, one wonderful flow.

53 Structured Lessons

A1 to A2 curriculum mapped to CEFR: grammar, listening, vocab & dialogue.

AI Conversation Partner

Chat by voice or text; real-time grammar corrections with friendly explanations.

Placement Test

A 20-question quiz instantly places learners at A1-C1.

Quiz & XP System

Earn XP, level up from Anfaenger to Meister, build daily streaks.

Wort des Tages

The beautiful, untranslatable words that make German special.

Native Audio

Professionally generated pronunciation for every lesson.

Practise speaking with zero fear of judgement.

- Speak or type on real topics: Kennenlernen, Im Cafe, Reisen, Arbeit, Familie, Wetter.
- The AI replies naturally, then gently corrects your mistakes.
- Voice mode with live transcription - or text mode. Your choice.
- The practice partner most learners never find: patient, 24/7, encouraging.

HOW A CORRECTION WORKS

You: Ich habe gegangen.

v

Corrected: Ich bin gegangen.

v

Why: movement verbs take sein, not haben.

A real curriculum - not a game.

- Lessons progress through pronunciation, grammar, vocabulary, listening & speaking.
- Example - A1.0 Aussprache, Das Fundament: the 6 critical sounds that separate German from English.
- Clear learning objectives per lesson; XP rewarded on completion.
- Built to take a true beginner to confident A2 - and beyond.

CEFR-aligned - A1 -> A2 -> B1/B2 roadmap

THE EMOTIONAL HOOK

Fall in love with the language.

Fernweh

A deep, aching longing to travel to distant places.

Weltschmerz

The pain of the world falling short of how it should be.

Zweisamkeit

The warm intimacy of being together with just one other person.

EVERY WORD INCLUDES

- Pronunciation guide
- Literal part-by-part breakdown
- Rich meaning & example sentence
- Why it is beautiful - fully shareable

Turns a study tool into something people love - and share.

Gamification done right.

XP system with six levels of mastery:

Anfaenger

Einsteiger

Lernender

Fortgeschrittener

Experte

Meister

- Daily streaks build the habit - progress tracking across lessons & skills.
- Quizzes reinforce memory through active recall & spaced repetition.
- **The difference:** every engagement mechanic is tied to genuine competence.

Personalised from the first tap.

Brain

- Pick your goal - set your level honestly - we start exactly where you are.
- Optional placement test fine-tunes the path.
- The experience adapts to why you are learning - boosting day-1 retention.

Built to scale - modern, cross-platform, lean.

- Expo / React Native - one codebase shipping to iOS, Android & Web.
- Supabase backend for lesson content and data.
- Dedicated AI backend service powering live conversation & corrections.
- Premium, distinctive design language: deep navy, gold, German-flag accents.
- Fast to iterate, cheap to scale, ready for the app stores today.

A massive, proven, growing market.

\$10B+

Language-app market,
growing double digits

Top 5

Most-studied languages
worldwide: German

DACH

Work, study &
migration demand

- Duolingo proved consumers pay at scale - but left a gap for learners who want real fluency.
- Wundervoll targets serious learners: travellers, professionals, students & expats.

Freemium subscription, premium positioning.

FREE

- Core lessons
- Word of the Day
- Hook learners in

WUNDERVOLL PREMIUM

- Unlimited AI conversation
- Full curriculum & advanced corrections
- Offline audio - monthly & annual plans

Premium brand = premium price vs. mass-market rivals. Future: B2B (schools, corporate relocation, universities) and more languages on the same engine.

From app to the way the world learns German.

- Become the destination for people who do not just want a streak - they want to truly speak.
- Near-term: extend the curriculum to B1/B2, expand AI topics, launch Premium.
- The engine is language-agnostic - German today, the world tomorrow.
- The ask: partnership & investment to scale content, AI and growth.

Sprichst du schon Deutsch? Let's make it wundervoll.
